

## It's official, Massachusetts is now a state division of the National Association, effective as of May 18, 2011.

Donald M. Doucette,  
Executive Director

For the past few years Don Doucette has been our official Agent and Ambassador at Large in Massachusetts. Through his efforts he has established Historic U.S. 6 Route signage at the East end of the Grand Old Highway in Provincetown.

Eventually Don hopes to have signs along the entire historic alignment. However, to accomplish this requires support of individual members, communities and businesses. This is part of our economic development program to encourage vacation travelers to explore the 6.

Massachusetts U.S. Route 6 (6A on the Cape) provides a wealth of cultural, natural and economic resources for the nostalgic or practical highway traveler.

Whatever your travel interests, old Massachusetts U.S. Route 6 provides 118 miles of travel exploration and enjoyment opportunities just waiting and ready to go. Don looks forward to your involvement as an active member of the Route 6 Team. **Email:** [Massachusetts@route6tour.com](mailto:Massachusetts@route6tour.com)
